CONSENT FOR MEDICAL INFORMATION

This only applies if we need to obtain additional information

Before giving your consent to our obtaining a Medical Report, you should read the following as it sets out your rights under the Medical Council's Guide to Professional Conduct & Ethics.

In dealing with your claim we may need to apply for a medical report from a doctor who has treated you. We need your consent to apply for this report. Before giving your consent, you should read this note carefully, as it sets out your rights. You do not have to give your consent but, if you do, you can say whether you wish to see the report before it is sent to the Company's Chief Medical Officer. If you do not give consent, we may be unable to proceed with your claim. The following information has been set out to help you.

If you allow us to seek a medical report from the doctor then you are able to say whether you wish to see the report (or have a copy of it) before it is sent to us. If you say you wish to see the report, we will tell you at the same time as we write to the doctor, and we will tell him you wish to see the report. You will then have 21 days to contact the doctor about arrangements for you to see the report. If this 21-day period elapses and these arrangements have not been made, then the doctor will send us the report.

The doctor is not obliged to let you see any part of the report if, in his opinion, it contains information that would be likely to cause serious harm to your physical or mental health or that of others, or indicate the doctor's intentions towards you or if disclosed be likely to reveal information about, or the identity of, another person who has supplied information about you, unless that person has consented or the information relates to, or has been supplied by, a health professional involved in caring for you. In such cases the doctor must notify you and you will be limited to seeing any remaining part of the report.

If the doctor believes that the whole report must be withheld, he will inform you and cannot send the report to us without your consent. Once you have seen the report, your written consent is again required before the doctor can submit it to us. You can write to the doctor, asking him to amend any part of the report which you consider to be incorrect or misleading, and have attached to the report a statement of your views on any part where you and the doctor are not in agreement and which the doctor is not prepared to alter.

You may indicate that you do not wish to see the report. We can then apply to the doctor for a medical report without notifying you again. The doctor will then supply us with a medical report. If you write to the doctor asking for access while the report is being prepared, then you will have 21 days to contact the doctor about arrangements to see it. Whether or not you wish to see the report before it is sent to us, if you ask, the doctor must let you see or give you a copy of the report for up to six months after it has been supplied to us.
